

Leveraging Oracle's database technology and TeraSolve hyper cube functionality, Information Edge provide three unique pre built business intelligence java applications for the Government, Telco and Transport Industries.

## THE INFORMATION EDGE BI PLATFORM

	OTHER OLAP TECHNOLOGIES	TERASOLVE ON ORACLE	KEY BUSINESS BENEFIT (S)
<b>SCALABILITY</b>	Multiple cubes. Limited Dimensions up to 10 per cube.	One cube unlimited dimensions.	Enterprise view of all data. Easy to build and maintain. Huge end user throughput capacity.
<b>LIKE FOR LIKE &amp; MULTIPLE STRUCTURES</b>	Does not hold old data structures.	Unlimited versions of structures.	Easily track and compare business change over time. Easily understand changes in data and structures.
<b>RELIABILITY</b>	Prone to crashes and unrecoverable.	Pre and post imaging.	Stability. Swift recovery from crash during peak times. Rollback.
<b>ACCURACY</b>	Prone to generating the wrong answers.	Patented calculation ensures correct answers.	Correctly calculated results ensures Regulatory Compliance.
<b>SPEED</b>	Slow and complex.	Up to 100 times faster.	Quick response essential for speed of thought analysis.
<b>FLEXIBILITY</b>	Unable to handle business change.	Rapidly adapts to change. Easy to build and maintain.	Adapt to business change. Essential for low latency enterprises.
<b>LOW MAINTENANCE</b>	High cost of ownership, constant maintenance & IT specialists required.	Oracle DBA skill set only required to maintain system.	Much lower 3 year cost of ownership.

## TERASOLVE TECHNICAL FEATURES

■ Full OLAP functionality and data storage within the Oracle database
■ The fault tolerant functionality of Oracle (pre/post imaging and rollback) are retained
■ Only Oracle DBA skills are required to administer the technology
■ All OLAP functionality is created such as: <ul style="list-style-type: none"> <li>- Dimensions and hierarchies</li> <li>- Calculations and aggregations</li> <li>- Cross-dimensional calculations</li> </ul>
■ Build and roll-out BI applications in a fraction of the time it would take with other approaches
■ Stability and reliability of Oracle
■ Correctly calculated results
■ Metadata separated from data hence allowing historic changes in structures to be managed and tracked
■ Benchmarked at 300Gb raw data loaded into the cube
■ Fully J2EE compliant
■ Certified on Linux
■ Bundled ODBO driver supports all ODBO compliant query and reporting tools

# INFORMATION EDGE BI APPLICATIONS

## GOVERNMENT

### Treasury and Government Data Reporting & Analysis

- Parliamentary Resource Estimates
- Government Expenditure Monitoring System (GEMS) reporting
- Departmental Expenditure Limit management
- Public Expenditure planning and Whole of Government Accounts.

### Comprehensive Spending Review

- Output and outcome focused bids
- Manage a zero based approach to the review
- Alignment of existing Treasury programmes to PSA Targets and Objectives in support of the Review and to assist the final settlements

## TELECOMMUNICATIONS

### Enterprise Circuit Manager

- End to End managed application for any circuit
- Break back of high level budget/forecast targets
- Cash-flow impact of RFS/RFB
- Circuit optimisation resulting in cost savings
- Flexibility and transparency for pricing and dynamic bid management
- Management of pass through costs and allocation of shared circuits
- Data for compliance reporting
- Full trace and audit ability of costs/charges/margins

## TRANSPORT & LOGISTICS

### A pre built BI application for the transport industry

- Route Analysis
- Route Profitability

**Information Edge is a global provider of data warehousing and financial management applications for commercial and government organisations. These solutions enhance your ability to plan, manage and monitor financial and operational performance across all aspects of your business.**

**S E E ■ A N A L Y S E ■ C O N T R O L**

- **Founded in New Zealand in 1992**
- **12 year consistent track record of profitability and revenue growth**
- **Worldwide offices, New Zealand, Australia, London & USA**
- **Blue chip international customer base**
- **8 years developing a patented unique Data Warehouse technology (Terasolve)**
- **We have a 100% success rate in project implementation and customer satisfaction**
- **We innovate in the field of financial budgeting and consolidation applications, providing tailor made solutions**
- **World class consultancy, implementation, support and maintenance services**

Information Edge does exactly what it says. It gives you and your company the edge when it comes to handling information. Our technology delivers a single unified system for management, statutory, regulatory, and materiality reporting, with the unique ability to track and compare changes in your organisation simultaneously.

We recognise that one of the biggest challenges you face is the need to report your activities accurately and transparently, whilst undergoing near-perpetual change. Our technology makes your life easier by delivering precisely that.
